

Cayuga Community College
TECHNICAL STANDARDS – EDUCATION PROGRAMS

Technical standards are defined by the Cayuga Community College Education Faculty as the functional abilities determined to be essential to teaching. These technical standards represent abilities and behaviors that all education students must be able to perform in order to function in

<p>Critical Thinking – Sufficient ability to problem-solve</p>	<ul style="list-style-type: none"> * Make decisions based on knowledge about child development and learning standards * Adapt lessons and resources to meet the varied needs of children * Implement emergency procedures as needed to keep children safe * Utilize self-assessment strategies
<p>Emotional, Psychological, & Mental Health – Sufficient health to exercise sound judgment and to complete responsibilities</p>	<ul style="list-style-type: none"> * Examine and modify own behavior and accept constructive criticism * Demonstrate ability to concentrate and make effective judgments * Adapt to changes and display flexibility * Function in an environment of uncertainties and stressful situations

In accordance with law and Cayuga Community College Policy, no qualified individual with a disability shall, on the basis of that disability, be excluded from participation in the program. Cayuga Community College will provide reasonable accommodations to a qualified individual with a disability. It is the responsibility of the student to request the accommodations that are needed to perform the behaviors listed from the Office of Accessibility Resources.
